THE BOND MARKET.

Railway Issues Were Strong, Sales Amounting to \$1,029,000. At New York, yesterday, money on call was easy at 2@24 per cent.; closing offered

for sixty days and \$4.89@4.89% for demand. The improvement in the New York stock market made further progress yesterday, the reactions resulting from realizations or from bear raids were less pronounced than of late and seemed to stimulate purchases by those who have recently espoused the bull side. The engagement of \$2,000,000 gold for shipment by to-morrow's steamers had little or no effect, money on call being extremely easy and funds on time being offered more freely than of late. The fact that the advices from London were more reassuring, and that there were no new developments of an unfavorable character on this side, tended to stimulate buying for both the long and short accounts. The advance was equal to 4 to 44 per cent., and everything on the list participated in the rise. The commission houses had more orders than for some "time, and the bears covered freely. Distillers yielded 2% at Illinois for the annulment of the charter,

tion closed strong in tone. Railway bonds were strong. The sales were \$1,029,000. Atlantic & Pacific incomes rose 3. to 8; Toledo, St. Lonis & Kansas City firsts dropped from 67 to 6012, on the announcement that a receiver had been appointed for the company; Rock Island debenture fives, after falling to 90%, rose to and closed at 93. Government bonds were steady, and State bonds were dull. Closing quotations were:

Trade Good, with Prices Rather Unsettled in Several Lines. The last day or two there has been a decided improvement in trade, but prices are less steady. In dry goods, leather, hides and produce the weakness is the most noticeable. Produce, poultry, eggs and butter are all weak at quotations. Onions go off 50c per barrel. New potatoes are weaker. Tomatoes are in light supply and advanced 50c per crate. There are few green apples on the market. Oranges and

lemons are in ample supply to meet the demand. There is fair demand for corn and oats. some grades of corn being the higher. Oats are easier. In wheat practically nothing is doing and No. 2 red declined 4c. Track hads on the cereals yesterday ruled as folleat-No. 2 red, 66e; No. 3 red, 62c; No.

Wheat Turned Up 1-2c Yesterday, While Corn and Oats Made Advances.

Indications that Grain Operators Are Beginning to Shift Their Gaze from Visible Supply to Prospects for Next Year.

TRADING AT CHICAGO,

Provisions Were Dull but Firm and Pork Advanced 42 lgs. CHICAGO, May 19.-It would appear from to-day's 'se advance in the price of wheat that the operators are beginning to

shift their gaze from the visible supply to the outlook for next year's supply. Corn and oats were firmer, partly on account of what is being revealed of the requirements of Europe. Provisions were extremely dull, but very firm with grain. Wheat at the opening was about 180 the higher than the closing figures of yesterday and ruled the West, 11 2c; Quinebaugh, 64c; Star of firm and prices were further advanced 4c, then ruled irregular, declining be and again advanced 4c, with final closing steady about 12 @ 4 chigher than yesterday. Shorts seemed more disposed to buy. Trading, to some extent, comprised the changing over of July into September. The weater was fine, but the reports from Kansas in regard to the growing crop there were very unfavorable. The European cropreports also were unfavorable. The lack of a more active foreign demand was accounted for, in the minds of many, by the experience of two years ago, when the continental buyers let their fears run away with their discretion, and paid dearly for it. It is not to be expected, it is claimed, that they should so soon forget that costly lesson. The cargo of wheat bought at Duluth during the May excitement to deliver on May contracts arrived last night, and has been inspected contract. It was inspected out of Duluth as No. 1 hard spring. Armour & Co. report the sale of 550,000 bushels of low grade for ex-

> unsatisfied. Corn started at about the final quotations orders-some from the outside-the price worked up 4c, when, on selling by shippers, the market weakened &c. Selling orders came in from St. Louis and the Southweet, presumably on the fine weather. The offerings were fairly well taken by shorts, and, wheat turning up, corn sympathized, recovering the second break, ruled steady, and closed with a 1804c advance. feature to-day was the relative firmer tone of July compared with September, the dif-

ference most of the time being 4c. There was a fair trade in oats and a steadier feeling, chiefly in sympathy with was in changing from May to June and July. May and June showed more strength and advanced be, while the other futures were up 18@ 4c, and the close was steady at nearly the top. In provisions little seemed to be wanted

but even less was for sale, and buyers had

to bid an advance on the nominal market

to entice any offer of stuff from the holders. Prices are 424c higher for pork, .10c for lard and .10e for ribs. Lake room was in fair demand and steady at 112c for wheat and 14c for corn to Buffalo, and Se for corn to Kingston. Estimated receipts for to-morrow are: Wheat, 170 cars; corn, 200 cars, oats, 290

cars; hogs, 8,000. The leading futures ranged as follows: Options. | Opining Highest, Lowest. | Closing Wheat-May. July 7774 Corn-May ... June ... Before the Doctor Comes. Ladies' Home Journal.

Many a woman has helplessly wrung her hands when disease has stepped over her threshold because she had no remedies with which to fight the enemy. Perhaps the doctor cannot come, or she has no one to send for bim, and the drug store is miles away. Every wife and mother should, in some degree, at least learn what to do in an emergency of this kind, and she should never be guilty of that crime against the well being of her household -an empty medicine chest. She should see to it that the hot-water bags or bottles are always ready for use, and that the jar is full of mustard. A bundle of cloths for bandages and plasters should be with these, so that no matter how great the panic into which she may be thrown she cannot fail to find them. To get the patient into bed, surrounded with hot-water bags, after soaking the feet in hot water and mustard, is to forestall some of the good offices of the best physicians. To restore failing circulation there is nothing better than mustard plasters, made with hot water, and placed upon the sole of each foot, the back of the neck, each wrist and the stomach.

Odds and Ends. A piece of leather from an old boot or shoe, lined with flannel, makes the best iron-holder. Next to this several layers of flannel or felt quilted together is most satisfactory. A cotton holder is very undesirable; it takes fire so easily, and soils so much sooner than woolen goods. The washerwoman who understands her

business never has lumpy starch. Her secret is told in a few words. She first mixes the floor with water, then removes the boiling water from the fire for a minnte before stirring in the mixture. This rule follows in making gruel, corn starch. Another excellent bint relative to starch

offers a piece of alum about the size of a

bickery nut for every pint of starch. The

alum is dissolved and then stirred into

starch. This preparation is used for stif-

fening gingbams, muslins and calicoes,

These fabrics so treated will retain their

beauty of coloring for a long time.

DUN & CO.'S WEEKLY REVIEW | BUSINESS DIRECTORY

This Mercaptile Agency Finally Admi 8 the Business Outlook Gloomy.

No Wonder Gold Is Flowing Out of the Country When Excess of Imports Over Exports for Four Months Has Been \$86,233,918.

NEW YORK, May 19 .- R. G. Dun & Co.

say: Stocks rally from extreme depression, but business shows no substantial improvement. The distribution of prodnots to final consumers is rather less encouraging, though the weather has been generally more favorable and at some points helps retail trade. Wholesale business and production show each week more hesitation with regard to the crops next money uncertainties. Some large failures and many of minor importance show the effects of increasing stringency in money markets, and while money is comparatively easy here the pressure at other places has increased. Almost everywhere collections are slow, and doubt about the future affects new undertakings, although the present volume of trade, based on past orders, is remarkably large. The treasury is in a stronger position than for some weeks past, but exports of gold have notably increased. Exports of products in April were in value \$15,800,000, while imports were \$84,991,092, an increase of \$8,600,000, so that the excess of imports for the month was \$24,378,412.

only \$60,612,680, a decrease of more than and for four months of the current year \$86,283,918. In two weeks of May exports have been but slightly decreased, while imports have been \$6,200,000 greater than last year. In such conditions it is not strange that a large amount of gold has gone abroad this week, and \$2,500,000 has been ordered for shipment to-day. The extraordinary bank failures in Australia. involving deposits already amounting to more than \$420,000,000, of which \$125,000,000 was due to British depositors, cause much realizing on securities and merchandise, the effects of which were felt in American markets. Nevertheless, stocks have been

American buying. Iron is rather weaker at Pittsburg, the coal good and glass fair. Little improvement is seen at Cincinnati. Trade at Cleveland is dull, collections slow and money close. The monetary situation improves at Indianapolis, but at Detroit the jobbing trade is 5 to 10 per cent. smaller than last year, though manufactories are at work full time and money is easier. Chicago reports improved retail and satisfactory wholesale trade, with liquidation and lower prices for local securities and slow collections. East-bound rail shipments are larger, but wheat is at the lowest price for thirty years. Milwauke trade improves, but money is very tight. At Louisville the money market improves.

Wheat is 14c lower, with sales of 23,000,-000 bushels for the week. Corn is 180 and oats to lower. Pork products are slightly higher, and cotton unchanged. While the great industries are well employed, orders for the future are growing more scanty. The iron trade is weaker, Southern forced sales depressing the price. No improvement is seen in bar iron, and competition depresses plates, Pittsburg having taken contracts at amazingly low prices, while structural iron is lower than The failures for the week number 247 in
